SQL and Databases
Database Project Proposal

I am proposing a catalog of some anonymous person's movie collection, like a library.

Entity Types and Descriptions:

Movies

1. Title
2. Year
3. Director
4. Writer
5. Composer
6. Cinematographer
7. Description
8. Camera Used

Directors

1. First Name
2. Last Name
3. Birthday
4. Movies Directed

Writers

1. First Name
2. Last Name
3. Birthday
4. Movies Written

Cinematographers

1. First Name
2. Last Name
3. Birthday
4. Movies Shot

Composers

1. First Name
2. Last Name
3. Birthday
4. Movie Scores Composed

Queries could include:

What kind of camera was used to shoot Santa Sangre?

What films are scored by Ennio Morricone?

Who wrote His Girl Friday?

What is the oldest movie in anonymous's collection?
